Set, Medical, for Detached Troops  
of an Epidemic Prevention Depot

SOURCE: Tokyo, Japan.

IMPORTANCE: Not previously reported.

DESCRIPTION: This set consists of two chests, 27" x 14" x 14". The chests are made of wood, covered with a brown pressboard, with metal reinforcements.

Each chest has two metal hinges and two metal hasps. The lid of each chest has a leather skirt to aid in water proofing the chest. There are two 1 3/4" wide canvas straps as additional support to each lid. Each chest has a rope handle on each end.

The international Red Cross emblem is painted on the rear and each end of the chests.

The Japanese characters on the top of each chest are interpreted as "Medical Pannier for a Dispatched Troop of the Epidemic Prevention Depot".

COMMENT: These chests contain drugs and biologicals of a diagnostic nature. It is probable, according to the information obtained, that this set was used by a small group of men sent from an Epidemic Prevention Depot to an isolated garrison when that garrison was in need of additional help in an actual or threatened epidemic.

It is obvious that the set was not meant to be used alone but was designed to be used in conjunction with a hospital or field

laboratory.

All the drugs and biologicals found in this set are of the standard type found in Japanese medicines.

Inventory of Set, Medical, for Detached Troops  
of an Epidemic Prevention Depot

The contents of the two chests are as follows;

1.	Alcohol, pure	gm	500
2.	Tablets, culture media, Aronson	box	5
3.	Potassium nitrite	gm	25
4.	Potassium sulphite	gm	50
5.	Hydrochloric acid	gm	25
6.	Ether, pure	btl	4
7.	Potassium hydroxide	gm	25
8.	Sodium hydroxide	gm	25
9.	Tablets, culture media, Kauffman	box	5
10.	Serum, healthy rabbit, dried	box	1
11.	Culture base milk, dried	box	5
12.	Bile, dried	box	10
13.	Water, pepton, dried	box	10
14.	Mannite, culture base, dried, Barsiekow	box	5
15.	Lactose, culture base, dried, Barsiekow	box	5
16.	Saccharose, culture base, dried, Barsiekow	box	5
17.	Maltose, culture base, dried, Barsiekow	box	5
18.	Maltose, culture base, dried, Ringersheim	box	5
19.	Levulose, culture base, dried, Ringersheim	box	5
20.	Dextrose, culture base, dried, Ringersheim	box	5
21.	Typhoid bacilli, serum, immunized, dried	box	5
22.	Paratyphoid bacilli, Type A, serum, immunized, dried	box	5
23.	Paratyphoid bacilli, Type B, serum, immunized, dried	box	5
24.	Serum, standard, dried	box	5
25.	Paratyphoid bacilli, Type C, serum, immunized, dried	box	2
26.	Gaertner enteritis bacilli, serum, immunized, dried	box	2
27.	Cholera bacilli, type mixture, serum, immunized, dried	box	5
28.	Cholera bacilli, type strange, serum, immunized, dried	box	5
29.	Cholera bacilli, type original, serum, immunized, dried	box	5
30.	Plague bacilli, serum, immunized, dried	box	2
31.	Cholera bacilli, type medium, serum, immunized, dried	box	5
32.	Meningococci, serum, immunized, dried	box	2
33.	Dysentery bacilli, type Shiga, serum, immunized, dried	box	5
34.	Dysentery bacilli, type Y, serum, immunized, dried	box	5
35.	Dysentery bacilli, type insoluble mannite, serum, immunized, dried	box	2

36.	Dysentery bacilli, type F, serum, immunized, dried	box	5
37.	Solution, Giemsa	gm	50
38.	Solution, cresol soap	gm	500
39.	Sodium citrate	gm	25
40.	Glycerin	gm	25
41.	Chloroform	btl	1
42.	Gentian violet	gm	25
43.	Acetic acid	gm	50
44.	Alcohol	gm	1000
45.	Salt	gm	25
46.	Pyrogallol	gm	25
47.	Fuchsin	gm	50
48.	Formaline	gm	100
49.	Solution, diagnosis, typhoid bacilli	btl	1
50.	Solution, diagnosis, paratyphoid bacilli, type A	btl	1
51.	Solution, diagnosis, paratyphoid bacilli, type B	btl	1
52.	Solution, diagnosis, typhus bacilli	btl	1
53.	Test papers, red	box	10
54.	Test papers, blue	box	10
55.	Borax	gm	25
56.	Chromic acid, dehydrated	gm	25
57.	Methanol	gm	500
58.	Methylene blue	gm	50
59.	Iodine	gm	10
60.	Tincture of iodine	tube	10
61.	Tablets, culture media, Russell	box	20
62.	Tablets, litmus milk	box	10
63.	Potassium iodide	gm	25
64.	Sulphuric acid	gm	500
65.	Wire, nickel chrome	meter	1
66.	Hydrochloric acid	gm	25
